Memorandum, "The Effect of Population
Growth on the Supply of
Manufactured Goods"
The Commission on
Economic Growth
Washington, D.C.
The Commission on Economic Growth

Table

1. The Supply of Manufactured Goods in the United States
The Commission on Economic Growth

The Commission on Economic Growth has been studying the
effect of population growth on the supply of manufactured
goods in the United States. The Commission has found that
the supply of manufactured goods is increasing rapidly,
and that this increase is due to a number of factors,
including the growth of the population and the growth
of the economy.

The Commission has found that the supply of manufactured
goods is increasing rapidly, and that this increase is
due to a number of factors, including the growth of the
population and the growth of the economy.

The Commission has found that the supply of manufactured
goods is increasing rapidly, and that this increase is
due to a number of factors, including the growth of the
population and the growth of the economy.
